

ADULT CAT FORMULA

Natural Ingredients with Added Vitamins & Minerals

No Artificial Colors, Flavors or Preservatives

A special protein to fat ratio as well as wholesome and delicious ingredients give adult cats the necessary nutrition and energy needed for a healthy and happy lifestyle. An increased fiber level helps cats of all types with hairball control.

FEATURES & BENEFITS

MUSCLES & ORGANS

High-quality proteins help fuel the development and repair of muscles and organs, while taurine promotes strong heart and eye health.

DIGESTIVE TRACT

Healthy whole grains such as ground barley and ground oats help maximize nutrient absorption and long-term digestive tract health; yeast culture aids in nutrient utilization.

IMMUNE SYSTEM

A complete vitamin and mineral package offers powerful antioxidants and bio-available minerals essential for a healthy immune system, especially in times of stress and activity.

SKIN & COAT

Fish meal, a natural source of omega-3 fatty acids, promotes a healthy skin and a sleek coat.

TEETH, BONES & JOINTS

A balanced calcium to phosphorus ratio helps stimulate the development of strong teeth and bones.

URINARY TRACT

A balanced calcium to phosphorous ratio and low magnesium content contribute to maintaining overall urinary tract health.

Guaranteed Analysis

Crude Protein	32%
Crude Fat	16%
Crude Fiber (max)	6%

**Not recognized as an essential nutrient by the AAFCO Cat Food Nutrient Profiles.*

Calorie Content:

440 kcal/cup (calculated)

Available in 3-lb. and 20-lb. bags.

Ingredients:

Chicken Meal, Ground Corn, Chicken Fat (Stabilized with Mixed Tocopherols), Corn Gluten Meal, Ground Oats, Ground Barley, Rice Bran, Ground Beet Pulp, Alfalfa Meal, Natural Flavor, Fish Meal, Yeast Culture, Salt, Calcium Carbonate, Potassium Chloride, Sweet Potatoes, Dried Chicory Root, Blueberries, Taurine, DL-Methionine, Dried Yeast Fermentation Solubles, Vitamin E Supplement, Choline Chloride, Zinc Sulfate, Zinc Proteinates, Vitamin A Supplement, Vitamin D3 Supplement, Niacin Supplement, Ferrous Sulfate, Manganese Sulfate, d-Calcium Pantothenate, Manganese Proteinates, Copper Proteinates, Thiamine Mononitrate, Copper Sulfate, Vitamin B12 Supplement, Riboflavin Supplement, Pyridoxine Hydrochloride, Calcium Iodate, Folic Acid, Biotin, Sodium Selenite, Rosemary Extract, L-Ascorbyl-2-Polyphosphate (Source of Vitamin C), Yucca Schidigera Extract.

Nutritional Adequacy Statement:

Blue Seal Adult Cat Formula is formulated to meet the nutritional levels established by the AAFCO Cat Food Nutrient Profiles for all life stages.

Suggested Feeding Plan

Age in Months	Body Weight (lbs.)	Approx. Cups per Day*
KITTEN		
10 weeks	$3\frac{1}{4} - 2\frac{1}{4}$	$\frac{1}{4} - \frac{2}{3}$
20 weeks	$2\frac{1}{2} - 4\frac{1}{2}$	$\frac{1}{2} - \frac{2}{3}$
30 weeks	$3\frac{1}{4} - 6$	$\frac{1}{2} - \frac{3}{4}$
40 weeks	$4\frac{3}{4} - 8\frac{1}{2}$	$\frac{2}{3} - 1$
ADULT		
	3 - 5	$\frac{1}{4} - \frac{2}{3}$
	5 - 10	$\frac{1}{3} - \frac{3}{4}$
	10 - 15	$\frac{1}{2} - 1$
	15 +	1 +

*A standard 8 oz. measuring cup holds approximately 4 oz. of Blue Seal Adult Cat Formula.

For Kittens:

Start kittens on Blue Seal Adult Cat Formula at between three and five weeks of age. If preferred, moisten with equal parts of milk or water. Kittens will eat approximately every four hours. Feed them all they want. At four to five months of age, they may be gradually changed to two feedings per day.

For Adult Cats:

Food consumption can be inconsistent during gestation. Feed enough to keep proper body condition and body weight. Food consumption can be inconsistent during lactation. Feed at two to three times the normal amount of food and adjust to maintain proper weight.

Introducing a New Cat Food:

To avoid dietary upset when introducing your pet to a new food, switch to the new food over the course of a week by gradually decreasing the old food and increasing the new.

Provide plenty of fresh water.

The suggested feeding plan is intended solely as a guide. The variables of management, environment, and breed may dictate changes in the animal's requirements.
